

RIDEAU LAKES BIRDERS

Join fellow bird watchers for weekly opportunities to go birding in the Rideau Lakes

area. This is a terrific way to see local birds and to get to know your forests, neighbourhoods, wetlands and open spaces. Get back to nature, breathe fresh air, walk, hike, ride and meet new friends. The outings are geared for those who are retired or have weekday daytime available. Every Thursday morning the group meet at a predetermined spot and carpool in the area the

group has decided to visit that week. After a mid-morning refreshment break, members continue on until about 12 p.m.

So, why not leave the nest and join the flock? The Rideau Lakes Birding Group may be the outdoor activity you've been looking for! Check out the Townships web site for weekly reports - just "click" on the little blue bird on the Recreation Page!
