**PW2019-11
Dan Chant
Roads Coordinator
Township of Rideau Lakes
1439 County Road 8
Delta, ON K0E 1G0**

Faxes or email will not be accepted.

RFP OPENING:

All bids will be opened and recorded publicly immediately following the above-noted deadline.

INQUIRIES REGARDING RFP:

All inquiries relative to this RFP shall be directed to Dan Chant, Roads Coordinator at dchant@twprideaulakes.on.ca or call 1-800-928-2250 Ext 227.

No information provided orally by the Township shall be binding, nor shall it alter the requirements in any way.

WITHDRAWAL OF BIDS:

The Contractor may withdraw their bid at any time, in writing. Bids withdrawn under this procedure shall not be reinstated.

PAYMENT TERMS:

The Bid price will form the basis for payment. The successful Contractor shall invoice the Township of Rideau Lakes as directed. Invoices shall be submitted in detail to the following address:

Township of Rideau Lakes
1439 County Rd. 8
Delta, ON K0E 1G0

The Township pays the Harmonized Sales Tax (HST) where applicable and should be shown separately on the invoice.

INSURANCE:

Commercial General Liability

Insurance issued on an occurrence basis for an amount of not less than \$5,000,000 per occurrence / \$5,000,000 annual aggregate for any negligent acts or omissions by the contractor relating to its obligations under this Agreement. Such insurance shall include, but is not limited to, bodily injury and property damage including loss of use; personal injury; contractual liability; premises, property & operations; non-owned automobile; broad form property damage; broad form completed operations; owners & contractors protective; occurrence property damage; products; employees as Additional Insured(s); contingent employers liability; tenants legal liability; cross liability and severability of interest clause.

Such insurance shall add the Township of Rideau Lakes as Additional Insured with respect to the operations of the contractor. This insurance shall be non-contributing with and apply as primary and not as excess of any insurance available to the Township.

Automobile Liability Insurance

With respect to owned or leased vehicles used directly or indirectly in the performance of the services covering liability for bodily injury, death and damage to property with a limit of not less than \$5,000,000 inclusive for each and every loss.

Contractor's Environmental Impairment Liability (if applicable)

The contractor shall effect and maintain Environmental Impairment Liability with a limit of not less than \$2,000,000 per incident /annual aggregate. Coverage shall include Third Party Bodily Injury and Property Damage including on-site and off-site clean-up. If such insurance is written on a claims made basis, coverage shall include a 24 month extended reporting period or be maintained for a period of two years subsequent to conclusion of services provided under this Agreement.

The Policies shown above shall not be cancelled unless the Insurer notifies the Township in writing at least thirty (30) days prior to the effective date of the cancellation. The insurance policy will be in a form and with a company which are, in all respects, acceptable to the Township.

WSIB

Proof of a WSIB Clearance certificate, to ensure that the employees of the contractor are adequately protected in the event they are injured on the job.

Indemnification

The contractor shall indemnify and hold the Corporation of the Township of Rideau Lakes harmless from and against all claims, liability, losses, actions, demands, damages, costs and expenses, including reasonable legal fees, occasioned wholly or in part by any negligence acts or omissions, whether willful or otherwise by the contractor, its agents, officers, employees or other persons for whom the contractor is legally responsible in the performance of this agreement.

PW2019-11
FOR TIGHT BLADING
WITHIN THE TOWNSHIP OF RIDEAU LAKES**

MODIFIED PADDING (TIGHT BLADING) HL2

ITEM	Location	Depth (mm)	Width (m)	Length (m)	Quantity (t)
1	Old Kingston Road	15	6.1	1300	274

Special Provisions – Items

1. General for all items

The contractor shall be responsible for all phases of the work including signing, traffic control and project management.

All costs associated with traffic control shall be fully compensated under the items for all locations of work within this contract.

It shall be the contractor’s responsibility under the items provided herein to complete the work except as specifically otherwise provided.

The contractor shall be the “Constructor” under the provisions of the Occupational Health and Safety Act.

Where no specific requirements for erosion and sedimentation control are defined in the contract, the contractor shall take all necessary precautions to ensure that no deleterious materials enter any ditch, stream, pond, lake or other water body as a result of the work on this contract.

2. General for all Hot Mix Items

Where indicated in the item descriptions, the Contractor shall “tight blade” a modified HL-2 asphalt on the road surface as a levelling course prior to the placing of Micro Surfacing by others.

“Tight Blading” is a process whereby HL-2 asphalt is spread on the existing pavement to fill wheel ruts and to level distorted areas. The Contractor will supply a Class 6, minimum size, motor grader equipped with a 12foot blade. The blade shall have a box attachment installed on each end of the blade to contain and control the spread of the HL-2 material. The grader blade cutting edges shall be perfectly straight (i.e.new).

The Contractor shall supply HL-2 to the various sections in dump truck loads. The HL-2 material shall be tailgate dumped on the road surface in front of the grader in small piles as directed by the

director. The grader shall be used to spread the material on the surface of the road to its minimum thickness. This means that the grader blade will ride on the existing pavement high spots while depositing HL-2 materials in the depressions. Several passes may be required in some rough areas to remove longitudinal irregularities.

The Contractor will roll the material with a static steel wheeled roller to compact the HL-2 material.

HL-2 Modified hot mix shall conform to the requirements of OPSS 1150 except that the acceptable ranges for the aggregate sieve designations shall be as follows:

Sieve Designation	Acceptable % Passing
9.5mm	100
4.75mm	85-100
2.36mm	70-80
1.18mm	50-60
0.600mm	30-45
0.300mm	15-30
0.150mm	5-16
0.075mm	3-8

And, the minimum Marshal Stability, as designated in table 5 shall be 9,000 N.

Scheduling: Work under this part shall commence only if ambient temperatures are above 18 degrees Celsius at all times during the work, and never when the pavement is damp or there is the forecast of rain.

MEASURE OF PAYMENT

Payment shall be based on the actual tonnage of asphalt placed, graded, compacted and shall include all labour, equipment and materials required to complete the work.
